**EMBROIDERY**

**SCREEN PRINTING**

**HEAT TRANSFERS**

### ESSENTIAL PRODUCT INFORMATION

---

**Due to the nature of polypropylene, special care must be taken throughout the decoration process when heat is applied for curing. Please consult with your decorator or material supplier.**

### TIPS FROM OUR EXPERTS BY DECORATION TECHNIQUE

---

#### **EMBROIDERY**

Embroidery is the art of embellishing a piece of apparel with a needle and thread or yarn creating stunning visual representations of various types of art. This is achieved by converting logos in a digitizing software and using various stitch patterns, angles, density and stitch types to create depth, movement and detail. Thread can be made from many materials. The most commonly used threads are polyester and rayon. There are also options such as metallic, cotton, nylon, silk and even Nomex thread for fire resistance. Embroidery has a very high-perceived value and is popular for use on most apparel, bags, hats, luggage, blankets and more!

**For best results, digitize bottom up and center out For best results, sewing over a thick center seam recommend using a larger needle such as an 80/12 sharp**

#### **SCREEN PRINTING**

An imprinting method in which the image is transferred to the fabric. Ink is squeegeed through a stenciled screen stretched over a frame and then cured in a dryer.

**FOR HEATHER COLORS ONLY- Low-cure poly inks are required. Grey or black bleed blockers may be necessary.**

**For best results, manual press or specialty equipment may be required**

**For best results, manual press or specialty equipment may be required**

### HEAT TRANSFERS

A graphic, name and or number applied to a textile with a heat press. Great for quantities of any size, sports name and numbering, fashion, performance wear, print on demand programs and on-site decorating events.

**Heat transfers with low cure adhesive and bleed blockers are required for this product. Heat transfers with an aggressive adhesive are required for stain release, water resistant/waterproof coated and nylon fabrics. Consult with your transfer supplier for recommendations.**
